

Assure DeFi[®]

THE VERIFICATION **GOLD STANDARD**

Security Assessment

MLMX

Date: 23/07/2025

Audit Status: PASS

Audit Edition: Solana

Risk Analysis

Vulnerability summary

Classification	Description
 High	High-level vulnerabilities can result in the loss of assets or manipulation of data.
 Medium	Medium-level vulnerabilities can be challenging to exploit, but they still have a considerable impact on smart contract execution, such as allowing public access to critical functions.
 Low	Low-level vulnerabilities are primarily associated with outdated or unused code snippets that generally do not significantly impact execution, sometimes they can be ignored.
 Informational	Informational vulnerabilities, code style violations, and informational statements do not affect smart contract execution and can typically be disregarded.

Executive Summary

According to the Assure assessment, the Customer's smart contract is **Secured**.

Scope

Target Code And Revision

For this audit, we performed research, investigation, and review of the MLMX verifying the functional and superficial part of the contract since it is generated in SPL token creator and we do not have access to the base code.

Target Code And Revision

Project	Assure
Language	Rust
Codebase	Deployed address: https://solscan.io/token/B1Ycj8Bqv5fjoNZJkzAvNiis4FVwTVeGWvrLd8ABEqT9 Creation: <i>Token program</i>
Audit Methodology	Static, Manual

AUDIT OVERVIEW

Findings

Title	Description	Result
A1. Token Distribution and Liquidity Monitoring	Tokens are not yet distributed among holders, and liquidity has not been added. We recommend monitoring the top wallets and the locked liquidity once the process is completed.	Warning Risk [Monitoring required]
Owner and Wallet Security	No scams linked to the owner's wallet.	No Issues
Token functions	No mintable risk. No freeze/auto-freeze risk. Transfers are taxed at 2%.	No Issues
Ownership and Token Distribution	#Pending distribution [A1. <i>Token Distribution and Liquidity Monitoring</i>] No permanent control risk.	Pending distribution
Metadata and Technical Security	No concerning metadata found. Immutable metadata confirmed. Custom fee applied [2% transfer fee].	No Issues
Market Activity and Transparency	No recent user activity confirmed. #Pending LPs [A1. <i>Token Distribution and Liquidity Monitoring</i>]	Pending LPs

Assessment Results

Score Results

Review	Score
Global Score	85/100
Assure KYC	Not completed
Audit Score	85/100

The Following Score System Has been Added to this page to help understand the value of the audit, the maximum score is 100, however to attain that value the project must pass and provide all the data needed for the assessment. Our Passing Score has been changed to 84 Points for a higher standard, if a project does not attain 85% is an automatic failure. Read our notes and final assessment below. The Global Score is a combination of the evaluations obtained between having or not having KYC and the type of contract audited together with its manual audit.

Audit PASS

This audit report presents an in-depth analysis of the sol contract functions, emphasizing its immutability, renounced ownership, and financial controls.

The project has successfully passed the security audit with no major concerns. LPs and token distribution are not completed yet, we recommend monitoring it during the process and afterwards.

Disclaimer

Assure Defi has conducted an independent security assessment to verify the integrity of and highlight any vulnerabilities or errors, intentional or unintentional, that may be present in the reviewed code for the scope of this assessment. This report does not constitute agreement, acceptance, or advocating for the Project, and users relying on this report should not consider this as having any merit for financial advice in any shape, form, or nature. The contracts audited do not account for any economic developments that the Project in question may pursue, and the veracity of the findings thus presented in this report relate solely to the proficiency, competence, aptitude, and discretion of our independent auditors, who make no guarantees nor assurance that the contracts are entirely free of exploits, bugs, vulnerabilities or deprecation of technologies.

All information provided in this report does not constitute financial or investment advice, nor should it be used to signal that any person reading this report should invest their funds without sufficient individual due diligence, regardless of the findings presented. Information is provided 'as is, and Assure Defi is under no covenant to audit completeness, accuracy, or solidity of the contracts. In no event will Assure Defi or its partners, employees, agents, or parties related to the provision of this audit report be liable to any parties for, or lack thereof, decisions or actions with regards to the information provided in this audit report.

The assessment services provided by Assure Defi are subject to dependencies and are under continuing development. You agree that your access or use, including but not limited to any services, reports, and materials, will be at your sole risk on an as-is, where-is, and as-available basis. Cryptographic tokens are emergent technologies with high levels of technical risk and uncertainty. The assessment reports could include false positives, negatives, and unpredictable results. The services may access, and depend upon, multiple layers of third parties.
